Gathering friends for a shopping trip? Your Explorer Van is ready with its roomy interior wrapped up in a sleek, space-saving exterior. In fact, the Metris by Explorer Vans is the first truly mid-size van of its kind. With more size, space and power than even the largest minivan, the Metris is ideal for those who don't need a full-size van but still want our legendary comfort, style and custom feel.

With seating for up to seven passengers and storage space to spare, you have the freedom to bring all your friends. Of course, you're the lucky one, because with great amenities like the available KENWOOD Navigation, backup camera, backup sensors, Crosswind Assist, Lane Keeping Assist, Blind Spot Assist and Adaptive Parking Assist, the driver's seat is the best seat of all.

And because entertained kids are quieter kids, there's an optional 15" Flip-Down Monitor on Low Top vans or a 22" HDTV on High Top vans, with Blu-ray™ player, HDMI input and 110V game outlet inverter.
